TOTALS		

GROUP INFORMATION

Total Number of Members in Group (approx.)	30
Of that number, how many participate in all or most of your group's activities?	15
How many participate in some of your group's activities?	20
About how many non-members participate in your regular activities?	5
How much time, per week, do your most active members spend on group activities?	4 hours
How much time, per week, does your average member spend on group activities?	2 hours

In brief, can you describe what the regular activities of your group are?

Our club's goal is to provide resources to help students on campus develop financial literacy. We host weekly meetings where we talk about current economics news, saving money, building credit and investing in the stock market. We have two or three panels throughout the year so that we can bring alumni to talk to our members. We also have weekly dinner meetings in Sharples for group bonding purposes.

This space is intentionally left blank for SBC notes.

EXPLANATIONS OF REQUESTS

[7302]: [Honorarium]

\$1000

We would like to request Honorarium funds to bring in a speaker from the United States Department of Treasury. We have scheduled the speaker to come next month and have established a day and time, given that we receive our requested funding. Our speaker lives in Philadelphia and does not require any Lodging or Transportation funds. The event will be open to the whole campus and we hope that people will be able to get a glimpse of how working for the government can be when looking at opportunities in the economics field.

TOTAL COST OF [Honorarium 7302] \$1000

[7310]: [Food/Catering]

\$500

We hope to provide lunch during our speaker event. We would like to cater from Chipotle. From a survey we sent out to campus, we project about 50 people will attend the event. On the Chipotle website we got a quote of approximately \$500 for 60 people. We would like to order for 60 people in case more people end up coming.

TOTAL COST OF [Food/Catering 7310] \$500
